The Fox Runner™ Portable Edge Trim Removal Systems

Complete systems utilizing Fox TrimAway® pneumatic trim removal components mounted to a unique portable stand for permanent, semi-permanent and temporary applications anywhere in your plant

Fox TrimAway® and Fox Runner™ systems available to handle up to 2-6" wide trims, up to 6,000 FPM. Efficiently remove paper, film, foil, textile and non-woven trims. Great for picking up and removing pieces (die cutter) as well as chopped, granulated and pelletized materials.

Systems include:

- **Fox TrimAway® exclusive Venturi design, models FX2 or FX3**
- **Regenerative Blower—virtually maintenance free and super quiet without silencers**
- **All blower hardware**
- **High quality blower motor starter (200V, 230V and 460V) with suitable AC plug & 10' cord**
- **Blower filter**
- **Pick up nozzle(s) and Y connector(s)**
- **Intake and discharge ducts (10' standard) with high torque duct clamps**
- **Complete welded tubular steel system mounting frame**
- **Locking casters**

Optional components:

- **Blower silencers to deaden noise levels where necessary**
- **Silencer mounting assembly**
- **PTFE lining for systems conveying "sticky" materials**
- **Discharge duct over 100'**
- **Collection units—nylon collection bags or 80 cubic foot capacity expanded metal collection bin**
